

solenoid valve 1120826

URL: <https://www.sxplc.com/solenoid-valve-1120826>

Product data sheet

Driving method: pneumatic

Valve function: reversing

Type (channel position): Through type

Function: Air type

Lining material: copper alloy

Sealing material: fluoroplastic

Application field: Industrial furnaces and kilns

Temperature environment: high temperature

Flow direction: unidirectional

Optional accessories: coil

Applicable industry: Petrochemical

Applicable medium: oil products
