

## Spray gun □ LW1-18N1-0030

URL: <https://www.sxplc.com/spray-gun-lw1-18n1-0030>

### Product data sheet

- Specifications
  - Nozzle diameter (mm): 1.8
  - Air usage (L/min): 210
  - Compressor required (kW): 1.5 to 2.2
  - Pattern aperture (mm): 185
  - Atomization stage: General purpose
  - Cap type: N1
  - Neck bending angle (°): 0
  - Air inlet: G1/4
  - Cup mounting port: G1/4
  - Paint supply type: Pressure feed type
  - Spraying distance (mm): 250
  - Sprayed air pressure (MPa): 0.34
  - Paint injection amount (ml/min): 250
  - Neck length (mm): 300
  - Cup mounting port: G1/4
  - Spray distance (mm): 250
  - Sprayed air pressure (MPa): 0.34

- Air inlet: G1/4
  - Paint injection amount (ml/min): 250
  - Paint supply method: Pressure feed type
  - Body: Aluminum die-cast
  - Wetted parts: Stainless steel
  - For painting hard-to-reach parts and the inner surface of pipes.
-
