

Pilot-operated, pressure reducing/relieving valve PVDA-LAN

URL: <https://www.sxplc.com/pilot-operated-pressure-reducing-relieving-valve-pvda-lan>

Product data sheet

- Cavity

T-21A

- Series

1

- Capacity

10 gpm

- Maximum Operating Pressure

5000 psi

- Control Pilot Flow

7 - 10 in³/min.

- Factory Pressure Settings Established at

blocked control port (dead headed)
