Product data sheet

- | | |
|---|---------|
| • Impact energy in the end positions | 0.3 J |
| • Cushioning length | 17 mm |
| • Theoretical force at 6 bar, retracting | 247.4 N |
| • Theoretical force at 6 bar, advancing | 294.5 N |
| • Moving mass at 0 mm stroke | 71 g |
| • Additional moving mass per 10 mm stroke | 6 g |
| • Basic weight with 0 mm stroke | 238 g |
