

Input/output module FDCIO223

URL: <https://www.sxplc.com/input-output-module-fdcio223>

Product data sheet

2 monitored in-/outputs selectable as detector line (collective Siemens/Cerberus PRO, Synova 600 or conventional Synova 300), as contact input, control output or as control output with acknowledgement

LED display of input and output status, fault, test, etc.

Control output for equipment 24 VDC, max. 2 A

Two-wire installation for all types of cable

Pluggable connection terminals

Power supply 24 VDC external (detection lines galvanically isolated)

Microprocessor-controlled signal evaluation

Communication via FDnet/C-

NET (individual addressing)

Applicable in dry, dusty and humid areas

Different mounting possibilities
