

## Analog Input Assembly,FC- FANWR-24R

URL:<https://www.sxplc.com/analog-input-assembly-fc-fanwr-24r>

### Product data sheet

#### Overview

The Honeywell FC-FANWR-24R is a fan assembly designed for integration into HVAC (Heating, Ventilation, and Air Conditioning) systems. It operates on 24V DC power, making it suitable for various commercial and residential applications.

#### Features

- 24V DC operation: Seamless integration with low-voltage control systems.
- Durable construction: Built to withstand the demands of continuous operation in HVAC

Product Name

Compact design: Fits easily into space-constrained equipment cabinets.

Improved airflow: Efficiently circulates air within HVAC systems.
