

High Quality Air Compressor for Ship JGX100/SH

URL:<https://www.sxplc.com/high-quality-air-compressor-for-ship-jgx100-sh>

Product data sheet

Product Features:

The JGX100/SH Breathing Air Compressor is compact (can fit in the trunk of a car), lightweight, and suitable for diving, firefighting, and other applications.

Powered by a gasoline engine, it does not require an external power source, making it ideal for outdoor diving, rescue diving, and salvage operations without the inconvenience of needing an additional power supply. It uses activated carbon and molecular sieve filters to produce even cleaner air.

Technical Specifications:

Displacement:	100L/min-6m ³ /h-3 5CFM
Inflation Rate:	23 min (0-30Mpa, 6.8L cylinder)
Operating Pressure:	200bar-300bar
Drive:	Honda Gasoline Motor
Power:	5.5 HP
Rotor Speed:	2300r/min
Gross/Net Weight:	52 kgs / 39 kgs
Machine Dimensions:	76*32*40cm
Noise Level:	83 decibels
Oil Tank Capacity:	300cc(0.3L)
Oil Type:	Dedicated High-Pressure Air Compressor Oil
