

Split hydraulic cutter TC-45A

URL: <https://www.sxplc.com/split-hydraulic-cutter-tc-45a>

Product data sheet

Product features:

Suitable for cutting armored copper, aluminum cables, and steel core aluminum stranded wires

Flip open head design for easy placement of cut objects

Closed shear head with bolt interlocking

The head can rotate freely 360 degrees

Connecting a single acting hydraulic pump

Technical parameters:

Output: 6T

Rated pressure: 700bar

Cutting range: Copper/aluminum/steel core aluminum stranded wire within diameter of 45mm

Steel rod with a diameter of 20mm

Weight: 3.8kg
