

BALL RUNNER BLOCK R165331420

URL:<https://www.sxplc.com/ball-runner-block-r165331420>

Product data sheet

Type of construction	High-precision ball runner block
Ball chain	Without ball chain (standard)
Material (profiled rail systems)	Carbon steel
Preload class	C1 - Low preload
Accuracy class	N - Normal
Seal	SS - Standard seal
Self-aligning for compensation of misalignments	Without self-alignment
Width of runner block [mm]	100
Length of runner block [mm]	139
Height of runner block [mm]	40.4
Height of runner block with guide rail [mm]	48
Lubrication	With initial lubrication and preservation
Dynamic load capacity C [N]	66700
