

Tube Fitting SCM10-316

URL: <https://www.sxplc.com/tube-fitting-scm10-316>

Product data sheet

Materials of Construction:	Stainless Steel AISI 316	For Fluid Type:	Gases, Liquid, Fuels, Oil, Corrosive, Natural Gas (CNG), Hydrogen, Steam, Petroleum Oil
Specifications Met:	n/a	Length:	46.2 mm
Brand:	A-LOK	Technology:	Process Control
Configuration:	Tube to Tube (Union)	Application:	Instrumentation, Analytical Installations, CNG / LNG Lines, Hydrogen Service, Offshore Control Panels, Sensing Lines, Research Labs
Shape:	Union, Straight	Industry:	Semiconductor, Microelectronics, Chemical, Petrochemical, Transportation, Power Generation, Nuclear, Oil & Gas
Operating Pressure:	240 to 470 psi	Division:	Instrumentation Products Division
Minimum Operating Temperature:	-255 °C	Tube Outside Diameter:	10 mm (O.D.)
Maximum Operating Temperature:	649 °C	Options:	n/a
