Product data sheet

description

The mic23 series limit switch box is a versatile unit that provides a visual indication of the valve position as well as electrical feedback from the two microswitches. Suitable for CP type actuator, the output signal of the switch feedback AE actuator

Technical features:

The PC housing is strong, and the switch position can be clearly identified

Degree of protection: IP 67 / NEMA4 and 4X (standard) IP68 (optional)

Device: The positioning component signal can be adjusted

Mechanical switch: 2SPDT

250VAC/16A,400VAC/10A

Single-wire interface: PG9

Terminal: 5 minutes (0.08-2.5 mm²)
